#### Project Description *(attach additional pages if necessary)*

This Project consists of furnishing and installing new exterior lighting and closed circuit television (CCTV) cameras at the Mini-Golf course. The Project includes the removal of existing plant material, resilient surfacing and automatic irrigation equipment to accommodate installation of new improvements. New LED pole-mounted light fixtures (luminaires) will be installed consisting of six (6) 22.5 foot poles with four (4) or five (5) luminaires on each and new LED bollards will be installed consisting of seven (7), 39 inch tall fixtures; both will be installed on concrete foundations. All of the lights will have dimming controls and bollard lights will have the ability to change color via a programmable controller. All lighting controls will be located in utility rooms in the adjacent building. There will be four (4) Closed Circuit Television cameras located on top of four (4) of the 22.5 foot poles, with controls located in the existing security room in the adjacent building. All power, control and data wiring shall be included. New plant material and automatic irrigation system shall be installed in the shrub beds adjacent to the mini-golf area. Existing trees shall be protected, pruned and fertilized. Landscape areas adjacent to the construction shall be reconstructed with topsoil and seed. The existing resilient surface and all mini golf appurtenances, equipment, and elements shall be protected at all times.

#### M/WBE Participation Goals for Services

*Enter the percentage amount for each group or for an unspecified goal. Please note that there are no goals for Asian Americans in Professional Services*

Prime Contract Industry: Construction

Group	Percentage
